Connecting
for business

Connecting
for capital

Connecting
for growth

**Entrepreneurs,
Welcome to the CEED Club!**

Connect for growth, development and capital!

CEED Club engages over 3000 entrepreneurs globally and over 400 entrepreneurs in Kosovo. We connect entrepreneurs and help them develop their companies. We make connections on three levels: connect for knowledge (entrepreneurial experiences exchange), connect for business contacts (locally and internationally) and connect for capital (capital access and financing preparation). We also grow the level of entrepreneurial knowledge and promote entrepreneurship as a positive value in society, which creates innovative and open community.
